Safe depictions of tree work

As the saying goes, "a picture is worth a thousand words." In this spirit, TCIA maintains a standard of, at a minimum, prohibiting any image in either editorial or advertising copy that appears to depict improper or unsafe practices according to OSHA requirements as well as the industry's ANSI Z133 safety standard for safe work practices.

If you have questions, please reach out. We maintain a list of common errors in ads and will be glad to provide this list, along with a copy of the Z133 standard for safety upon request. Our goal is to partner with you to improve safety in the industry.
